# Teachers using *The ABCs of Strings* method series offering private lessons

## VIOLIN & VIOLA TEACHERS including traditional classical, suzuki, fiddle, jazz:

(Cello & Double Bass teachers below)

"*The ABCs of Violin* is a very attractive method for both children and adults. I have been using this method for two years and I find it is a very complete and structured method. The exercises and songs are very lyrical. The students can develop gradually with left hand technique in a very constructive way. They also begin learning and working with basic bow strokes in book 1 and advance well with bowing techniques through the books. I recommend to all teachers to use this method and verify its great pedagogical value."

~Rafael Dengra, Professor of Violin

En español:

"*The ABCs of Violin* es un método atractivo tanto para niños como para adultos. Llevo dos años usando este método y lo encuentro muy completo y bien estructurado. Los ejercicios y canciones son muy líricas. Los estudiantes desarrollan una técnica de la mano izquierda gradual y eficaz. Pero también desde el primer libro empiezan a aprender y trabajar los golpes de arco básicos. Recomiendo utilizar este método a todos los profesores y comprobar ellos mismos su gran valor pedagógico."

"Since the first month I arrived in America in 2001, I have used and adore *The ABCs of Violin* books. There is nothing better here in the USA, and all my new students start their first lesson with the ABC's. I like everything - the collection inside and also the size of the notes and space between the songs - thanks!!!!"
